

## Selection

At no extra cost

### Colours

All shades on the colour chart are RAL standard. Other shades possible on request, by colour matching your sample.

The RAL colour chart is not associated with a particular brand. Find it in all DIY/paint shops, on sale and available for consultation on the internet (illustration below).

The depiction of the colours on the screen or on paper is not always true to life. It is better to consult a standardised colour chart.

€ 0

### Finishes

Choose your finish: Matt, Satin, Gloss or Micronised (also called Sanded).

Matt is, by its nature, more fragile. The micronised finish, by virtue of its depth, is less liable to scratching; it is harder to clean (often used for street furniture).

According to the base colour, the matt and micronised finishes may very slightly lighten the shade. In particular: gloss finish on a very dark shade – Consult us.

€ 0

## Options

### IOP-MVP

Reduced price paint

Simple painted finish without protective coat; exists in matt, satin, gloss or micronised finishes.

Ideal for reducing the budget when the quality of the finish is not vital.

Without a protective coat, the paint is more liable to scratching and deterioration due to UV rays.

- € 30  
Excl. tax / U

### IOP-VAG

Anti-graffiti varnish

Accredited anti-graffiti varnish; exists in gloss finish only.

The accredited "anti-graffiti" varnish is resistant enough to allow the use of certain solvents to remove inks.

Warning: the removal of all types of ink is not guaranteed.

€ 0

### IOP-PZC

Zinc patina

Hand-finished shine imitating the appearance of zinc. With matt finish.

These patina being the result of the applicator's labour, they will vary endlessly and it will never be possible to reproduce them exactly. The illustration opposite and the photos displayed on our sites and in our catalogues are just a rough guide.

+ € 30 - 60  
Excl. tax / U  
acc. to size of container

### IOP-RUST

Rust look

Rust look finish (type CORTEN brand). Paint containing iron oxide particles. With matt finish.

Alternative without additional cost : "Marron Oxyde Urbain" finishing with micronized varnish.

Other possible variant : "Marron métallisé" : IOP-MM

These patina being the result of the applicator's labour, they will vary endlessly and it will never be possible to reproduce them exactly.

IOP-RUST:  
+ € 80-220 Excl. tax / U  
acc. to size of container

IOP-MM:  
+ € 30 Excl. tax / U
