

## Draining base

Perforated base : 40mm holes.  
Excess water drains off underneath the container.

Allows good drainage of rainwater and after watering: the ideal solution for your exterior containers.

For exterior use only.  
For interior use, combine with the saucer option (IOP-ASS).

€ 0

## Water reservoir with Horticultural system

Allows the creation of a water reservoir integrated in the drainage section.  
Overflow drainage underneath the container.

For a reservoir free from the risk of frost.

Provide the option Horticultural system :  
IOP-SH or IOP-SH60.

acc.to capacity  
IOP-SH : € 30  
IOP-SH60 : € 45  
Excl tax/ Planter

## Drainage via weep hole

Watertight base with overflow drainage via a weep hole on one side of the container.

Ideal when water drainage is not possible underneath the container. Allows overflow drainage from a specific point. Possibility of reservoir with IOP-SH. Can be connected to a rainwater system.

€ 0  
without reservoir  
With reservoir,  
add IOP-SH :  
€ 30 Excl tax/Container

## Watertight base

Watertight base for "Indoor" container.  
Requires IOP-ER option :  
Reinforced sealing.

Control watering using the Water Level Indicator option (IOP-INE).

Recommended for interior use only.

IOP-ER :  
€ 20 - 60 Excl tax/  
Container  
acc. to size of container
