ATELIER SO GREEN

Materials

● "ICO" Chest structure

Fiber-cement HD NT 15mm - Complying with EN 12467 (category A, class 4) : Non-flammable A2-s1,d0 (M0); Rot proof; Frost proof; Insensitive in saline environment. Two-component high performance epoxy assembly resistant to aging and to aggressive environments.

● "IOP-ASSB" Wooden closure

Assembly of raw exotic wood slats (species according to available stock - others species on request). Closure without hinges : separate element to lay on.

Installation

Laying on the floor resting on the perimeter or recommended option: Laying on adjustable pedestals. Other options available: Ground anchor fixing ; hidden castors of handling ; Load distribution to avoid punching of ground waterproofing systems.

Colours and Finishes

Liquid paints : Primer + Polyurethane two-component Finish ;
Finishing varnishes : matt, satin, gloss or micronized/sanded ;
All shades on the RAL standard colour chart (except pearly, glittery and fluorescent) ;
Optional extras: Colours not on the RAL colour chart, Special finishes: Marron Oxyde Urbain (rusty appearance), Imitation Zinc Patina (IOP-PZC option).

Ventilation & Sealing

Removable wooden closure "IOP-ASSB" non-watertight ;
Storage box with perforated bottom for draining water and for a good ventilation.

IMAGE'IN garden chests and benches are manufactured in France and made to measure, with the dimensions and colors requested.

Rot-proof, frost-proof and resistant to saline or chlorinated environments, these are major qualities that make the IMAGE'IN garden chest an ideal product for outdoor use.

The "ICO" storage chest

The bench box structure is made from 15mm fibre cement panels, cut on a machining centre, glued together, then lacquered and varnished.

The fibre cement box is fairly heavy and perfectly stable in windy conditions.

This open structure and the closure system are sold separately. Various solutions are available for closing the storage box.

The closure seats in exotic wood slats "IOP-ASSB"

The removable exotic wood slats closure create a bench with storage space underneath. This closure is not watertight; it should be used to store objects that are insensitive to humidity. The wood is left untreated; its colour will gradually evolve and naturally tend towards a "silver-grey" hue. The wooden tray is removable and independent of the chest (without hinges).

The boards can be "Longitudinal" ou "Transversal".

Differents integrations are possible :

● Recessed

● Emerging on the sides

● Overlapped on the top

Solutions combining planter and seat

Planter + Seat in exotic wood "IOP-ASSB" :

Tailor-made planters from the IMAGE'IN range combined with an exotic wood slats top with the IOP-ASSB option.
