Watertight box with hinged lid, ideal for large volumes.

IMAGE'IN garden chests and benches are manufactured in France and made to measure, with the dimensions and colors requested.
Rot-proof and frost-proof, these are major qualities that make the IMAGE'IN garden chest an ideal product for outdoor use.

The "ICO" storage chest

The bench box structure is made from 15mm fibre cement panels, cut on a machining centre, glued together, then lacquered and varnished.

The fibre cement box is fairly heavy and perfectly stable in windy conditions.

The storage box and closing lid are sold separately.

The "IOP-COUV" watertight lid

Lacquered aluminium closure and seat

The lacquered aluminium lid provides a **lightweight** and **watertight** closing solution for your storage boxes.

The removable lid is independent of the box (without hinges).

The sizing can be adjusted for mixed use as a storage unit and bench.

The lid is available in the same colour as the chest.
Two different colours are available as an option.
