Colours

All shades on the colour chart are RAL standard. Other shades possible on request, by colour matching your sample.

The RAL colour chart is not associated with a particular brand. Find it in all DIY/paint shops, on sale and available for consultation on the internet (illustration below).

The depiction of the colours on the screen or on paper is not always true to life. It is better to consult a standardised colour chart.

Finishes

Choose your finish: Matt, Satin, Gloss or Micronised (also called Sanded).

Matt is, by its nature, more fragile. The micronised finish, by virtue of its depth, is less liable to scratching; it is harder to clean (often used for street furniture).

According to the base colour, the matt and micronised finishes may very slightly lighten the shade. In particular: gloss finish on a very dark shade – Consult us.

-

Options

IOP-MVP

Reduced price paint

Simple painted finish without protective coat; exists in matt, satin, gloss or micronised finishes.

Ideal for reducing the budget when the quality of the finish is not vital.

Without a protective coat, the paint is more liable to scratching and deterioration due to UV rays.

- € 30
Excl. tax / U

IOP-PZC

Zinc patina

Hand-finished shine imitating the appearance of zinc. With satin finish.

These patina being the result of the applicator's labour, they will vary endlessly and it will never be possible to reproduce them exactly. The illustration opposite and the photos displayed on our sites and in our catalogues are just a rough guide.

Glossy Varnish

Nice mirror effect
Not recommended for shades that are too dark

Matte Varnish

Beautiful velvety effect
More fragile: more delicate maintenance
Slightly lightens the shade

Micronized Varnish (sanded)

Textured effect. contains small grains
More resistant to scratching
Slightly lightens the shade

Satin Varnish

The must-have !
Classic and consensual finish
